ABOUT ME

I am a passionate and motivated second-year student at SVIET, Banur, eager to explore the world of UI/UX design, graphic design, and full-stack development. With a keen interest in creating intuitive and visually appealing digital experiences, I am constantly learning and improving my skills in front-end and back-end technologies. I aspire to build a career in full-stack development, combining creativity with problem-solving to develop impactful web applications. Open to new challenges and opportunities, I am excited to grow in the tech industry and contribute through innovation and dedication.

EDUCATION

BTECH (CSE) 2024-2028

Currently pursuing B.Tech in Computer Science and Engineering, building a strong foundation in programming, web development, and database management. Worked on academic projects including web-based applications and continuously exploring new technologies to enhance development skills.

SENIOR SECONDARY 2022-2024

Completed Senior Secondary education in Science stream, gaining fundamental knowledge in Mathematics and logical reasoning that developed interest towards technology and computer science field.

PROJECT

Grocery Website

Developed a responsive grocery shopping web application with product browsing, category filtering, search functionality, shopping cart, and a modern user interface. Focused on performance, responsive design, and an intuitive user experience using React.js.

Creating-Paste-App

Developed a responsive paste management application using React.js and Redux Toolkit, enabling users to create, edit, delete, search, and copy text snippets. Implemented local storage for persistent data and designed a clean, user-friendly interface.
